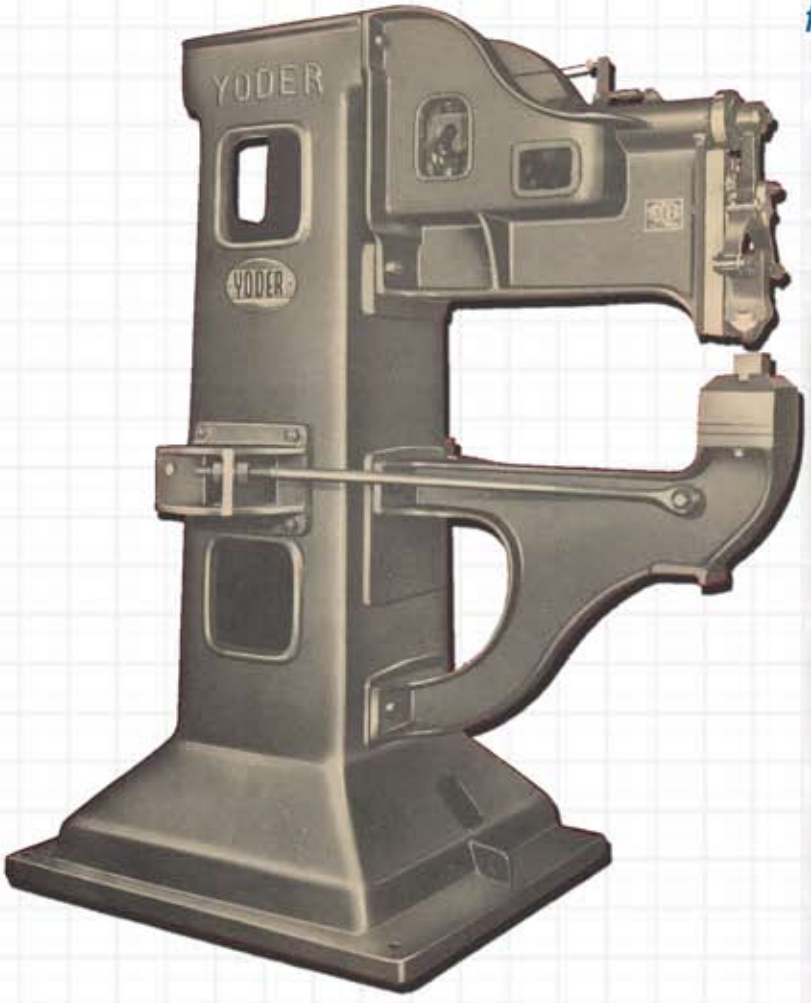
Power Hammer

The Legendary Yoder K-90-M Power Hammer is built for bending forming or planishing light gauge shapes of sheet metal. The perfect balance of this hammer is a feature that insures a long life, smooth running and stability.

Built to the original, proven designs, the K-90-M has a rugged, cast pedestal and frame with fabricated tierod brace assembly.



Yoder - the choice for metal forming, since 1910!
